Remarks

1. VOC emissions from the line F shall not exceed 1.0 tons per year in any 12 consecutive month periods. 2. The company shall keep up-to-date records of Certified Product Data Sheets (CPDSs) or Material Safety Data Sheets (MSDSs) that identify the volatile organic compound (VOC) content and hazardous air pollutant (HAP) content of each VOC and/or HAP containing material used on this line. 3. The company shall maintain a daily record of VOC usages at the facility. This record shall be updated on a monthly basis and shall be maintained on a 12-month rolling sum basis to show compliance with above VOC emission limitations. 4. Pursuant to the requirement of 25 PA Code §123.31, the owner/operator may not permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in such a manner that the malodors are detectable outside the property of the person on whose land the source is being operated..
